To create a dog in your team choose “Rechercher un chien par tatouage ou transpondeur” (means; search a dog by tattoo or microchip number)

Then tape the dog's tattoo or microchip number and the information regarding the dog should appear. Click on “Ajouter” (on the right hand side of the line) to add the dog in your team. You have to repeat this operation for each dog.

Your team appears on the bottom of a new screen into chapter “En reserve”. (Stand by list)

Then unclick the dog(s) you want to entry in that stake. The dog(s) will be transferred to the chapter “à engager” (to enter list).

In “Série” choose between –Grande Quête – Couple (brace) – Solo 1 or Solo 2 and then tape the handler's name and surname (to fill in automatically the other handler cells drag the mouse over the first name and surname).

When your selections are completed click on “valider” and the result will be then transferred to “engagement préparés” (prepared entries)

3 – YOUR ENTRIES

On the main menu go to “Mes engagements” (my entries)

In chapter Engagements préparés you will find the inscriptions you have prepared (just above) for the different stakes you have selected.

To finalize your entries you will have to select the choice of payment by a click either on:

“Règlement autre” if the organization can't offer payment by credit card then the payment will be done on site but the entries will appear on the program only after the full payment is validated by the organization (this is the choice for Moncetz)

Or on:

“Règlement par carte bancaire” (Payment on line by credit card) if the organization took this option. In this case your entries will be automatically valid. (this choice is not available for Moncetz)
